Minor building improvement projects were reviewed along with projected large projects in the next ten years. A Tabiona shop ventilation system for welding with a small paint booth needed immediate attention. A sidewalk for parent drop off at the Jr. High was close to completion. Progress on the construction plans for the new Union High School was reviewed along with plans for the old building. The oldest portion of the building would be demolished, the gymnasiums would be saved for use, and the front portion converted to District Offices with the offices in Duchesne and Roosevelt consolidated into that location. The wheel line would need to be sold before construction begins. CMGC proposals were distributed for evaluation.

President Thacker adjourned the meeting at 2:35 p.m.
